PLATINUM GVM UPGRADE

Ford Ranger

NEXT-GEN

For the ride
of your life™

Ford Ranger

NEXT-GEN

Take your Next-Gen Ford Ranger further with Lovells' 4000kg GVM Upgrade—a suspension system engineered for those who demand more. Designed and proven in Australia, this upgrade delivers unmatched strength, stability, and load-carrying capability. Rigorously tested to meet stringent local criteria, it holds full government approval for both federal (pre-registration) and state (post-registration) compliance. Built with precision and trusted by professionals, it sets the benchmark for performance and reliability—because when the road demands more, you need suspension that's built to handle it.

Upgrade Includes

- 2 x Front Coil Springs
- 2 x Front Lovells Platinum 8-way Adjustable Remote Reservoir Shock Absorber
- 4 x Lovells hi-tensile U-bolts
- 2 x Rear Leaf Springs
- 2 x Rear Lovells Platinum 8-way Adjustable Remote Reservoir Shock Absorber
- 2 x Lovells Greasable shackles & pins
